Annual Docker Appreciation Party Details

Will be announced and information mailed at a later date.

ODNR Watercraft Inspections

ODNR will be doing boat safety checks at a date to be determined.

Anyone that is interested, please stop by the Marina office to sign up.

New Riverside Restrooms

The new restroom facility at Riverside Marina which is located between the pool and the restaurant building is nearly complete. You will have a choice of (3) private units accessible from the back of the parking lot and (1) unit with access from inside the pool area. These (4) unisex units offer private locking with their own shower, toilet and sink and are heated and air conditioned. A temporary port a potty will be put on property to use until the new bathroom facility is open. We are also looking at adding a portable bathroom unit near the rack building and by F dock at Riverside to allow additional options.

Bridge

We have been informed that the Charles Berry Bridge will be operating at a much slower pace this summer due to opening with a temporary hydraulic system rather than the main mechanical system. If at all possible, we ask that our sail boat owners team up together to move numerous sail boats at one time to Lakeside to alleviate some of the waiting and congestion you may incur. You may contact the bridge by VHF-FM Marine Radio channel 16 or by phone at 440-244-2137 for more detailed information.

Misc. Items on Boardwalk (Riverside "B", "C" & "D")

We have received numerous complaints from fellow boaters and Harborwalk residents about items being stored on the Boardwalk (tents, canopies, grills, oversized dock boxes (all docks), canoes, small boats, refrigerators, additional trash cans, etc.). We would ask that none of these items be stored on the Boardwalk going forward, not only is it an eyesore for the marina but the Boardwalk on the C-D Wharf is supposed to be used as a sidewalk. Any items that are still on the boardwalk must be removed now and any that are placed on the boardwalk going forward will be removed by the marina. Thank you for your understanding and compliance.

Red Brick Development Building

Renovations continue on the main building, slated for a late summer opening. You will enjoy a new restaurant, banquet facility, coffee shop and other retail options. The developer will be looking into some other temporary food options to serve the marina prior to the facilities Grand Opening. We will keep our boaters informed with our summer mailing.

**If you need immediate assistance after hours, please call
Whittguard Security Co. 440-288-7233 for security issues.**

Or email us through our web site Spitzermarinas.com, for operational issues, and it will be forwarded to our staff immediately.
